

I am very concerned about the proposed rule changes giving priority to LPFM over FM translator service. My family listens to K-LOVE radio every single day because it is the one station that is family-friendly and commercial-free, always positive and encouraging. If it were displaced by an LPFM broadcaster providing other programming, my family (and thousands of others) would be without this positive and encouraging influence. It is difficult to find a radio program that ALL members of the family enjoy and respond to. K-LOVE is that radio station. It impacts thousands of lives every day by supporting wholesome values, giving people a moral compass in this society of "anything goes". I think it would be a HUGE disservice to the communities K-LOVE serves to jeopardize this programming. Thank you.
